# ADO SECURITY SERVICE

## \* SECURITY AUDIT

Security installation and systems are subject to wear and tear. They also need constant upgrading. All these necessities may not be discovered if the systems and installations are not subjected to constant auditing. therefore, we help you.

- Define your Audit requirements
- Understand and consolidate Your Threats
- Assess your Current Security Performance
- Based on all the above provide you a RISK SCORE
- Suggest and design Security Solutions

## \* PROVIDE YOU WITH A SOP TO IMPLEMENT THE SECURITY DESIGN

Standard operating procedures for security guard help maintain an effective work environment by clearly outline the policies and uniform procedures that improves efficiency and standardization. Most importantly a clear SOP can be of great help in case of emergency and odd situation.

## \* SECURITY TRAINING

A great security system can only as effective as the people who know how to use it well. Therefore, We undertake to train your employees or dedicated person responsible for residential Premises so as to keep them in the knowhow of the what is expected of them.

## \* OUR STRATEGY IS TO STRIVE AT ALL TIMES AND DELIVER COMPREHENSIVE SECURITY SERVICES TO OUR CLIENTS

Consequently, we have taken a 7-step strategy to service delivery. The steps include:

1. Survey of your area
2. Identification of risk and threats
3. Suggestion of a personalization security design
4. Protocol to a Security agency
5. Building of a Security SOP
6. Training and assessments
7. Report submission
